WORK EXPERIENCE

Software Consultant Trademarkia

08/2021 - Present

Trademarkia is an online trademark registration and searching platform.

Achievements/Tasks

- Working on **Trademark Perfect**, which is the enhanced version of the previous platform, **Trademarkia**.
- Created the **Trademarkia Recruitments Portal**, which will be used for on-campus placements for colleges throughout India.
- Worked primarily in the **frontend** team.

Frontend Intern Seristo

03/2021 - 06/2021

Seristo allows users to sell their services online. It also allows customers to see and buy the offered services.

Achievements/Tasks

- Responsible for development of the **admin portal**, and the customer side of the product.
- Used **NextJS** as the primary framework, along with many different packages.
- Worked with a team of backend developer, designer and a DevOps engineer.

Contact: Aditya Chaudhary - +91 9113080114

Software Development Intern Josh Talks

02/2021 - 03/2021

Achievements/Tasks

- Developed frontend of **Josh Recruitment Test Portal**.
- Used **ReactJS**, **Material UI**, **Axios** and many more React packages.
- **More than 200 people** gave their tests through this portal on the first iteration.

ACHIEVEMENTS

5 star coder on CodeChef 🏆

I am a 5 star coder with a max rating of 2000 on Codechef.

Expert on Codeforces 🏆

I have a max Codeforces rating of more than 1640.

ACM ICPC Amritapuri Regionalist

Our team got an AIR of 304 and college rank 1st.

ACM ICPC Gwalior-Pune Regionals

Our team got an AIR of 82 and college rank 2nd.

Overall 1st prize | CSI Devspace'21 Hackathon 🏆

*My team won the overall 1st prize in the Devspace'21 Hackathon for our project, **CodEd**.*

PERSONAL PROJECTS

CodEd (03/2021 - 04/2021) 🏆

- CodEd is an e-learning platform, focused on learning to code.
- The primary feature of the project is **Code Replay**. The code is streamed onto the online IDE **exactly like it was typed (in realtime)** by the instructor. So the students can pause the stream any time and play around with the code instantly.
- All the necessary features, like **webcam recording**, **code stream recording**, etc are provided on the platform. The IDE is also equipped with **Remote Code Execution** functionality.
- **1st prize winning project in CSI Devspace'21.**

Common Entry Test (12/2020 - 02/2021) 🏆

- Common Entry Test was a centralised portal for clubs & chapters recruitments for the VIT Vellore Campus.
- Worked with a team of more 8 people.
- Worked with **ReactJS**, **Material UI** and many more React packages.
- The website had more than **67,000+ page views** and **3000+ students** gave tests through the portal in the span of a month.
